PROFESSIONAL SUMMARY

Product Designer with 3.5+ years of experience designing complex enterprise SaaS, B2B, healthcare, marketplace, and AI- driven products. Expertise in translating complex business processes and technical requirements into intuitive user experiences across multi-role workflows, dashboards, data-heavy interfaces, and AI-powered products. Strong in product thinking, UX/UI design, design systems, and AI-assisted design-to-code using Claude Code, HTML/CSS, React, and Storybook.

PROFESSIONAL EXPERIENCE

UX Designer II | Techdome Solutions | Jan 2025 – Present

- Led product design for **Wizlo, a healthcare SaaS platform**, spanning patient intake, GFE review, encounters, treatment, orders, subscriptions, patient portals, and notifications.
- Designed complex **multi-role workflows** for patients, providers, reviewers, and administrators, translating business requirements into clear user flows, permissions, states, and edge cases.
- Designed key Wizlo experiences including **GFE Review, Sync Encounter, virtual waiting room, subscriptions, product bundles, and multi-treatment orders** across clinic and patient journeys.
- Built and evolved scalable **design systems and reusable components**, defining tokens, typography, spacing, variants, and interaction patterns across multiple product modules.
- Contributed to **Polystox**, a B2B polymer trading platform, designing **live bidding, dashboards, order tracking, and transactional workflows** for multiple user roles.
- Designed experiences for **HumanizeAI and Riseangle**, simplifying AI-driven journeys across **AI interactions, character generation, avatar libraries, and creator workflows**.
- Used **Claude Code** for AI-assisted design-to-code workflows across **HTML, CSS, React, and Storybook**, while owning UX decisions, component structure, responsiveness, and design quality.
- Partnered with **Product, Engineering, clients, and stakeholders** throughout discovery, prototyping, usability reviews, handoff, implementation, and design QA, iterating solutions based on feedback and technical constraints.

Junior UX Designer | Developer Bazaar Technologies | May 2023 – Jan 2025

- Designed web and mobile experiences across **marketplace, healthcare, fintech, events, e-commerce, and consumer platforms**, taking features from requirements through wireframes, prototypes, and high-fidelity UI.
- Designed **Mostly Events**, a two-sided events-industry job marketplace, creating separate experiences for **job seekers and recruiters** across profiles, job posting, applications, search, and recruiter dashboards.
- Designed **CarArbab**, a UAE-based vehicle bidding marketplace, focusing on **vehicle listings, bidding workflows, data-heavy interfaces, and admin controls** for complex transactional experiences.
- Worked on **Ability Amore**, designing user journeys and engagement experiences with a focus on **clear navigation, accessible interactions, and simplified user workflows**.
- Designed **Trimify**, an e-commerce/consumer experience, working on **product discovery, user flows, onboarding, and conversion-focused interfaces**.
- Contributed to **Clear Start Tax**, designing structured **tax-service workflows, forms, information architecture, and user-facing interfaces** to simplify complex information and processes.
- Collaborated with **clients, Product, and Engineering teams** in Agile environments to translate business requirements into user flows, responsive UI, interactive prototypes, and implementation-ready designs, iterating based on feedback and technical constraints.
